

VisualPursuits™

Club Websites and Image Competition Manager™

► Manage Digital Competitions

The Image Competition Manager program is designed to simplify and automate the task of conducting digital competitions. Images can be imported, judged, and projected in a manner that is appropriate for most photo competitions.

► Template Website for your Club

The program is packaged with website services used to manage competitions and most aspects of running your club. Membership, competition levels, submitting images, calendars, news, events, forums, group e-mail, custom webpages, and many other services are provided in an easily customized website.

► Interclub Competitions

Winning images from a local competition can be easily submitted for an interclub or council competitions without any additional image file uploads. You simply identify images already stored on the server.

► Submit Images from Website

Competition submissions can be made from your Visual Pursuits website and results are displayed automatically. Galleries can display images from members to showcase your club.

► Custom Web Pages, PayPal Payments

Premium subscribers can create custom web pages and include PayPal payment buttons.

► Website Judging

Images can be judged offline at a meeting or via your club website. Judges can be anywhere using any operating system with a browser.

► Handles Print Competitions

Prints can be entered into competitions with or without accompanying digital images. Management and recordkeeping are simplified.

► Easy to Use

Creating a competition, importing images, judging, and displaying images is very easy with the Image Competition Manager. You will be able to be productive with this program in just a few minutes.

► Simple Annual Competitions

Competition results can be used as a source of images for other competitions without any additional recordkeeping or image uploads. Annual competitions are a snap. Special features accommodate multiple judges and multiple judging passes.

► Free Subscription Available

Software Pursuits has been developing and marketing software for nearly 40 years. We take pride in creating high quality, reliable products.

The Image Competition Manager and its associated web services are available with free or paid subscriptions. Go to VisualPursuits.com for more information and a link to install the program. Videos are available to help you get started.

Special discounts are available for PSA member clubs.

► Control Your Shows

The program is flexible and allows you to project images in a manner that is appropriate for your club. Typically during a competition you would display images with titles but without authors for public critiquing. After judging, winning images and the author's names can be displayed by simply checking the appropriate box. Multiple monitors are supported.

► Imports and Exports

You can easily import and export images and competition data with the Image Competition Manager. You have the opportunity to correct errors as each image is added to a competition.

One Club's Experience

The Peninsula Camera Club in San Mateo, California recognized the need early for a program to handle its digital competitions.

Our club has been using the program since 2005 and we have been impressed with its features and ease of use. The Image Competition Manager has saved our competition chairs many hours of work and allowed us to handle digital competitions effortlessly.

I highly recommend this program for other clubs. View our club website at PeninsulaCameraClub.com.
